HOME RESORT LOCAL FUTURE  
TYPES MARKETS LIFESTYLES PLANS

*Opportunities on the coast rise and fall like the tides; are deeply effected by yearly seasons; and even more by the occasional hurricane, which will come.*

*We've seen the losses needlessly suffered by owners and developers who just needed to consider a few more things about real estate on our coast*

*The good news is we're telling you like it is, how you should respond to issues, and where to get more information. While difficult to find, we gathered what you need over the last 25 years, and offer the knowledge in useful tools and link hubs that bring it all together.*

*Now if your not familiar with the coastal market you don't have to learn the hard way and reap just the great benefits that make owing on the coast a multigenerational family get-away-get together that makes for many of your best memories*

**Make the best decision for  
your situation and family!**
